HARSH

DATA ANALYST

+91-6396486200 | harsh6000harsh@gmail.com | Meerut, Uttar Pradesh
Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Entry-level Data Analyst skilled in Python (Pandas, NumPy, Matplotlib), SQL, Power BI, DAX and Excel. Built 5 analytics projects across weather trends, movie ratings, marketing performance, HR analytics and insurance claims. Experienced in data cleaning, exploratory/statistical analysis, KPI development, dashboarding and business-focused insights.

TECHNICAL SKILLS

Data Analysis: SQL, Data Cleaning, Data Analysis, Business Analysis, KPI Development, Trend Analysis, Reporting
Business Intelligence: Power BI, DAX, Power Query, Interactive Dashboards, Data Visualization, Slicers, KPI Cards
Excel: Advanced Excel, Pivot Tables, Data Analysis, Reporting
SQL & Databases: MySQL, PostgreSQL, MongoDB, Aggregate Functions, GROUP BY, CASE, JOINs, Window Functions, RANK, LAG
Tools: Git, GitHub, VS Code, Postman
Python: Pandas, NumPy, Matplotlib, Exploratory Data Analysis, Statistical Analysis
Programming: Python, JavaScript, Java

PROJECTS

Historical Weather Trend Analysis | *Python* | *Pandas* | *NumPy* | *Matplotlib* | *Requests* | Open in Colab
• Retrieved 2015–2025 daily ERA5 reanalysis data for Delhi through the Open-Meteo API, covering temperature, humidity and precipitation.
• Cleaned records, compared monthly/seasonal patterns, calculated statistics, built Matplotlib charts and flagged extreme days using percentiles.

Movie Ratings & Trends Analysis | *Python* | *Pandas* | *NumPy* | *Matplotlib* | Open in Colab
• Analyzed 600 fictional practice records to compare movie ratings by genre, director and release year.
• Cleaned missing and duplicate data; calculated statistics and correlations, and charted ratings, budgets and revenue.

Marketing Campaign Performance Analysis | *Power BI* | *DAX* | *SQL* | *Excel*
• Built a Power BI dashboard for campaign revenue, spend and ROI; developed KPIs for ₹42.54M revenue, ₹25.69M spend and 67.63% overall ROI.
• Compared channels and regions: Search Engine Ads led revenue, while Influencer Marketing delivered the highest ROI.
Project Repository

HR Analytics Dashboard | *Power BI* | *DAX* | *Excel*
• Built an interactive HR dashboard with employee and attrition KPIs, monthly income and department/gender slicers.
• Explored attrition by department, age, salary, education, tenure and job satisfaction to identify groups for HR follow-up.
Project Repository

Insurance Claims & Policy Analytics | *SQL* | *Power BI* | *DAX* | *Excel*
• Analyzed 10,004 insurance records across policies, premiums, coverage, demographics and claim status.
• Used SQL GROUP BY, CASE and ranking queries, then built a Power BI dashboard to compare portfolio and claims patterns.
Project Repository

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Remote | Aug 2025 – Present
• Developed and deployed 5+ responsive client applications, including portfolio sites, e-commerce prototypes and admin dashboards.
• Worked with MySQL and MongoDB, REST APIs and structured application data, supporting data retrieval and reporting workflows.

EDUCATION

B.Tech in Computer Science Engineering | IIMT University, Meerut | 2021–2025 | 75%

CERTIFICATIONS

Python for Data Science — Internshala | Java Full Stack — DUCAT | Web Development — Udemy | Responsive Web Design — freeCodeCamp
